GitHub: github.com/borg98

I'm a solution-driven junior web developer with experience in both frontend development and e-commerce. During my internship at Partnersense, I built components using Next.js/TypeScript integrated with a headless CMS and worked within agile methodologies. My background in technical roles and team leadership has strengthened my work ethic, sense of responsibility, and collaboration skills. I'm now seeking my first full-time position to grow further and contribute with enthusiasm and a strong interest in technology.

TECHNICAL SKILLS

Languages & Frameworks

HTML, CSS, JavaScript, TypeScript, PHP, SQL, Node.js, React, Next.js, Sass, Vue, JSON, Tailwind CSS, Express.js, Zod, Shadcn/UI, Material UI, Socket.io, REST-APIs

EDUCATION

Medieinstitutet - Web Developer E-commerce (Aug 2023 – May 2025)
Two-year vocational program focused on full-stack web development with a specialization in e-commerce. Covers HTML5, CSS3, JavaScript, PHP, SQL, APIs, and database integration. Includes two extended internships to apply technical skills in real-world projects.

Östra Gymnasiet – Technology program with a Specialization in Music (Aug 2014 – June 2017)

Focused on technology, physics, business economy and music.

PROFESSIONAL EXPERIENCE

Partnersense – Junior Frontend Developer, Internship (September 2024 – May 2025)
- Built and maintained modular e-commerce components using Next.js, TypeScript and Tailwind CSS
- Refactored legacy code and fixed UI/UX bugs to improve performance and maintainability
- Delivered responsive components based on Figma designs and customer specifications
- Collaborated with a Digital Analyst to implement Google Tag Manager and set up GA4 tracking
- Integrated and managed product data in Norce (PIM) and content in Storyblok (CMS)
- Participated in daily stand-ups and contributed to multiple parallel client projects

DHL Express – Senior Courier (Nov 2020 – Aug 2023)
- Led a courier team in Västberga, acting as the key communication between staff and management
- Coordinated logistics operations under tight deadlines with high accuracy
- Developed skills in leadership, time management and operational problem-solving
- Maintained high levels of customer service and accountability in a fast-paced environment

Timab – Interior Assembler (Aug 2017 – Nov 2020)
- Installed refrigeration units and performed basic carpentry work in retail setting
- Interpreted technical drawings and plans to ensure accurate installation
- Practiced safety and compliance procedures, including Hot Works and Elevated Platforms certifications
- Worked closely in teams to meet deadlines with precision and quality

Utö Värdshus / Utö Gästhamn – Maintenance & Service Staff (Summers 2014 – 2024)
- Supported harbor operations, building maintenance and guest services on a remote island
- Took initiative in solving daily challenges independently and efficiently
- Assisted in restaurant operations and delivery during peak summer seasons
- Gained broad practical skills and adapted quickly to shifting tasks and priorities

ADDITIONAL INFORMATION

Languages
Swedish – Native
English – Fluent

Voluntary Experience

ÖTILLÖ – Safety boat operator (2018 – 2024)
Assisted with race safety by operating a support boat during the ÖTILLÖ Swimrun competition. Responsible for monitoring participants, responding to emergencies and coordinating with the event safety team to ensure a secure environment on the water.
